Reading List (Pensumliste)

The vast majority of resources are available free and online via the UiB library website. To access these online, you must connect from a computer located inside the university’s network, connect to the university’s network via VPN, or login to Oria with your UiB username password. The few items not available free and online can be found in the university library, downloaded via the university’s Literature Kiosk (for a fee), and/or purchased at a moderate cost online.

Please note that several of the following readings are optional only; the required reading list for the course will not exceed 800 pp. (+/-), not inclusive of an additional required 200 pp. (+/-) related to the student’s final research paper.
