

GEO204 reading list, spring 2018

Peter A. Rogerson (2015): Statistical Methods for Geography - A Student's Guide (fourth edition). Sage publishing

Appendix B: Mathematical conventions and notation

Chapter 1: Introduction to Statistical Methods for Geography

1.1 Introduction

1.2 The Scientific Method

1.3 Exploratory and Confirmatory Approaches in Geography

1.4 Probability and Statistics

1.4.1 Probability

1.4.2 Statistics

1.4.4 Geographical Applications of Probability and Statistics

1.4.4.1 Are housing prices lower near airports?

1.4.4.2 Do two places differ in terms of air quality?

1.5 Descriptive and Inferential Methods

1.6 The Nature of Statistical Thinking

Chapter 2: Descriptive Statistics

2.1 Types of data

2.2 Visual Descriptive Methods

2.3 Measures of Central Tendency

2.4 Measures of Variability

2.5 Other Numerical Measures for describing Data

2.5.1 Coefficient of Variation

2.5.2 Skewness

2.5.3 Kurtosis

2.5.4 Standard Scores

2.7 Descriptive Statistics in SPSS 21 for Windows

Chapter 3: Probability and Discrete Probability Distributions

3.1 Introduction

3.2 Sample Spaces, Random Variables, and Probabilities

3.3 Binomial Processes and the Binomial Distribution

3.4 The Geometric Distribution

3.5 The Poisson Distribution

3.7 Binomial Tests in SPSS 21 for Windows

Chapter 4: Continuous Probability Distributions and Probability Models

- 4.1 Introduction
- 4.2 The Uniform or Rectangular Distribution
- 4.3 The Normal Distribution**
- 4.4 The Exponential Distribution
- 4.5 Summary of Discrete and Continuous Distributions

Chapter 5: Inferential Statistics: Confidence Intervals, Hypothesis Testing, and Sampling

- 5.1 Introduction to Inferential Statistics
- 5.2 Confidence Intervals
- 5.3 Hypothesis Testing
 - 5.3.1 Hypothesis Testing and One-Sample z-Test of the Mean**
 - 5.3.2 One-Sample t-Test
 - 5.3.4 Two-Sample Tests: Differences in Means**
 - 5.3.6 Type II Errors and Statistical Power
- 5.4 Distributions of the Random Variable and Distributions of the Test Statistic
- 5.6 Further Discussions of the Effects of Deviations from the Assumptions
- 5.7 Sampling
 - 5.7.2 Sample Size Considerations
- 5.9 One-Sample Tests of Means in SPSS 21 for Windows
- 5.10 Two-Sample t-Tests in SPSS 21 for Windows**
- 5.11 Two-Sample t-Tests in Excel**

Chapter 6: Analysis of Variance

- 6.1 Introduction
- 6.2 Illustrations
- 6.3 Analysis of Variance with two Categories
- 6.4 Testing the Assumptions
- 6.5 Consequences of Failure to meet Assumptions
- 6.6 Implications for Hypothesis Tests when Assumptions are not met
- 6.10 One-Way ANOVA in SPSS for Windows
- 6.11 One-Way ANOVA in Excel

Chapter 7: Correlation

- 7.1 Introduction and Examples of Correlation**
- 7.2 More Illustrations
- 7.3 A Significance Test for r
- 7.4 The Correlation Coefficient and Sample Size
- 7.7 Correlation in SPSS 21 for Windows**
- 7.8 Correlation in Excel**

Chapter 8: Introduction to Regression Analysis

8.1 Introduction

8.9 Regression in SPSS 21 for Windows

8.10 Regression in Excel

Chapter 9: More on Regression

9.1 Multiple Regression

Chapter 12: Data Reduction: Factor Analysis and Cluster Analysis

12.1 Introduction

12.2 Factor Analysis and Principal Components Analysis
