Reading list

The following two books are recommended as course books:

1. **Svend Juul: An introduction to Stata for Health Researchers, Fourth edition**
2. **Alan C. Acock: A gentle introduction to Stata, Fifth or Sixth edition**

You only need one of the books.

If you need to refresh your general knowledge in statistical methods you can read “Essential Medical Statistics” by Betty R. Kirkwood and Jonathan A. C. Sterne or “Intuitive biostatistics: A nonmatematical guide to statistical thinking” by Harvey Motulsky.
